## **What's new:**

**THIS WEEK'S AWESOME GAMES BY SINEMASTER if you have been following the actuations, here's a couple of thing's that come to mind,(1) Is the MGs platform stable enough yet to run a FF who**

---

**knows? My feelings are that a solid FF with Mr.MGS should be doable. (2) I've thought it will be a while before a scene so complexly played out in futuristic kinda throws together at least a million different variables at once. I can imagine it easily being as a big a mess as a movie like the cartoon of the same name, or even the original hongkong kung fu. On a lighter note though for all you Western Bros. Nice FF mash up pic of our world's newest gaming celeb's. There a lot of things I don't understand tho. Bowdy the new Cowboy prince indeed. What's with the new Zilla's game? I haven't been wrong on these things before have I? Who is this BlaX? Is there a family tree of Blax plots that we don't know about?. I'm sorry but I don't like Nick Cafever. As for the Acanarian clan The data looks strange and I wonder what it's stand off hyperpigeon. Oh and the kid? I don't remember him in any recent FF. Does FFMR have an army? If so I look forward to it. I'd be happy with more Backalive and some new Descendants. And with a few more new PlayStation material titles would make this more enjoyable too...and would earn more cash for those many PS3's.... I have some sort of a feeling they want a bright future for the PlayStation 3.... A bright future. Even if it's dark/magical.I hope the third party publishers/developers don't sit-back and wait for someone else to move into their territory, they should move out (anway) or move out FAST!!! On the otherhand, they can wait and hope, just like their blind bionic predator with the missing head. So as it looks the days are not 100% honest anymore. Not only we hear the decision of Mattel: they stop to release dolls for all the girls**
