In addition, in the event that the server doesn't have enough time, the bonus items will not be distributed. The stamina of the level of the dungeon that players are currently locked to has been adjusted. The level of the monster will be set to a more challenging level, and stamina depleting attacks will occur more frequently. In this dungeon, players who consume potions will still be able to heal HP using items, but they will not be able to recover Stamina. The maximum number of monster types that a NPC can have will be increased. The items that can be selected will be expanded. The description of various items and the info on the abilities of enemies have been expanded. When players enter dungeons, you will now know how you can change your level during the fight.
